ACTIVITY OPTIONS

Art

Students have fun and create with a variety of art media! Classes include teaching still-life, landscape, portrait, painting, clay sculpture and more. This is an art program that goes far beyond cut and paste and takes arts and crafts to the next level!

Brain Games

The mind has no limits in this class! Learn how to play classical games, such as chess and bridge, solve brain teasers, and become science "myth-busters". This class will enhance math and thinking skills, nurture the inquisitive mind, and foster positive competition among friends!

Computer

Learn computer skills with exciting theme-based projects from basic to advanced curriculum for each child's level! Keyboarding, word processing, desktop publishing skills and more! This class also focuses on digital art and media techniques, including photo transformation, animation and movie creation!

Cooking

HOW TO have fun in the kitchen! Young chefs will have the opportunity to learn how to cook and create recipes in a fun way. Proper cooking vocabulary and the use of utensils will be introduced along with the basics of nutrition, kitchen safety and hands-on culinary techniques!

Chess

Students will learn how to play the game of chess from basic to advanced skills in a fun setting encompassing the history and cultural heritage of this classical and complex game! Learn a variety of strategy, pawn structure, piece value system, chess vocabulary, and more while improving cognitive skills in the areas of concentration, memory, and problem-solving skills.

Music

Discover that music is all around - from singing to everyday sounds! Learn about theory, genres, composers and instruments. A traditional music class that covers it all from reading music and recognizing terms, to keeping rhythm, discovering musical sounds and making our very own instruments!

One on One

This is for students interested in improving their academic abilities or learning to play a musical instrument. It provides the opportunity for individual teaching by professional instructors. Tutoring, guitar, piano lessons and more!

Photography

Explore the fundamentals of photography, such as natural lighting, shutter speed settings, depth of field, lens components, equipment knowledge, famous photographers and more! Students will have fun learning to use their digital camera to the fullest potential, apply digital art techniques to enhance pictures, and create a photo book to showcase their work!

Robotics

This class takes students on a LEGO® adventure with theme-based curriculum that provides interactive fun and hands-on learning! Explore the latest robotic technology designed for children building vehicles, machines, animals, creatures and more! Develop technology and engineering skills using creativity, problem-solving and teamwork skills!

Science

Learn the FUNdamentals of science! Discover our amazing world with research, exciting experiments and fun projects. We'll cover everything in our iKids U Lab from living creatures to weather to "everyday" chemistry and crazy concoctions!

Creative Writing

Students will have the opportunity to improve writing skills and express themselves in an imaginative way! The basic building blocks of creative writing are introduced through the creation of students' original pieces. Poems, short stories, plays, sports writing, and more!

Drama

Students will have an opportunity to be creative, expressive and improve communication skills... traits that will build self confidence! Learn about everything from costuming to script writing to improv. This class will bring out the Oscar winner in your child!

Fitness

Being healthy is a way of life! Students will learn the importance of health and nutrition through super fun individual and group activities that get the body moving! Not only that, students will learn how to make "no bake" healthy snacks.

Hip Hop

Is your child a future Cheerleader, Pom Squad Dancer, or Broadway Star? Give your child a head start with hip hop classes for learning choreographed routines, stage presence, coordination, dance skills, and more! Dancers are encouraged to be themselves in this high-energy, fun, and unique team environment!

Karate

Karate focuses on powerful punch, kick and block techniques following martial arts principles. This is a great way for students to learn discipline, respect, self-defense, balance, coordination and many other skills needed to succeed.

Sewing

This class is SEW FUN! Students will acquire a range of skills from basic stitching to how to use a pattern to designing their own projects on a sewing machine! Creative, math and kinesthetic techniques are also developed. Complete your own design from creative start to tangible finish!

Spanish

¡Hola, Amigos! In this class, we will move students from the basics to being in a fully immersed Spanish class. This will give children the foundation to understand and speak Spanish, build cognitive skills and have fun at the same time with a curriculum of engaging games, songs, crafts, and more!

Sports

Our multi-sport class will keep students at the top of their game! We will teach a range of sports including baseball, tennis, floor hockey, flag football, basketball and soccer. To be a good athlete and show excellent sportsmanship, you've also got to nourish the body, feed the soul and sharpen your skills!

Stay & Play

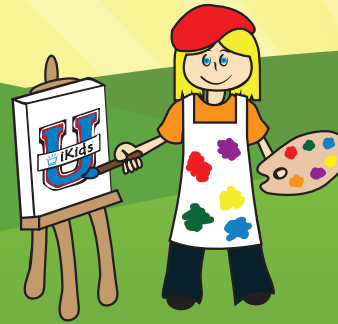

Just good old-fashioned fun! Organized and supervised play where students have the opportunity to interact with friends in a fun and stimulating environment! Treasure hunts, arts-n-crafts, LEGO® building, science, many more fun activities and all kinds of games!

And More!

iKids can fulfill any of your after-school needs with our wide variety of programs! Contact us for more options and bring iKids to your school!

Find out what Parents are saying about iKids U After-School...

"My daughter has never been so happy in an after-school program!" -iKids U Parent

"Your program is really great and is providing my child with a very nice, balanced after-school experience!" -iKids U Parent

"My daughter likes your after-school program so much that she wants to come also on Tuesdays and Thursdays!" -iKids U Parent

"I appreciate your flexibility and I love the program because my child comes home happy!" -iKids U Parent

"I have seen the iKids program in action at the school where I teach for several years now. I am always impressed with the patience and kindness the iKids teachers show the students. They speak to them with respect and work hard to meet the needs of the students. I am also impressed with the wide variety of classes that iKids offers for students. Sewing, Spanish, Drama...there is something for everyone. I love that the iKids program also offers a time for the students to play outside. Outdoor play time is so beneficial and enjoyable for young children!" -School Teacher

"I want to thank you again for everything, patience, care, follow-up, etc. We are happy with all the enrichment activities. The program is very rich, diverse and awesome! Thank you very much for designing it!" -iKids U Parent

"Thanks for always being here to support our program - you all obviously care for the children and you select strong and capable staff!" -School Admin

"My son can't wait to come to iKids; it's his favorite part of the day!" -iKids U Parent

"iKids alleviates distractions, allowing schools to focus on their primary mission of academic achievement for every single child." - School Administrator
